

Statement of CCB Standards Compliance

Kasigau Corridor REDD Project

Validation Scope:

The SCS Greenhouse Gas Verification Program has conducted a validation of the Kasigau Corridor REDD Project against the requirements of the Climate Community Biodiversity Alliance (CCBA) Project Design Standards, Version 2.0 (December 2008). SCS conducted both desk and field based assessment activities in its evaluation of the project. SCS used the Project Design Document supplied by Wildlife Works Carbon LLC as the basis for its evaluation.

Validation Opinion:

Based on the results of our validation activities, it is our opinion that the project meets the quality standard defined by CCBA. The Kasigau Corridor REDD Project conforms to the 14 Required CCB Criteria. The project also conforms to a total of 2 Optional CCB Criteria qualifying the project for Gold Level.
